

COVID-19: Equipment Cleaning Procedures

STEP 1:

Clean your hands (hand sanitizer) and wipe clean the door, alarm panel, switches, etc.

STEP 2:

Open your bay door and set-up slings on the tarmac.

STEP 3:

Disinfect the shell in the area you will be touching it and where your head will be positioned while carrying the shell. Carry your shell out of the boathouse and put it in slings (seat up) on the tarmac.

STEP 4:

Disinfect your shell and oar handles.

Wipe the seat, shoes, gunwales, riggers, and oar handles.

STEP 5:

Launch. Enjoy your row! Return.

Follow all distancing guidelines throughout this process. Max of one boat per dock.

STEP 6:

Clean your hands (hand sanitizer) and wipe any surfaces touched in the club.

Return your shell to slings on the tarmac.

Wash your shell and oar handles using soap and water. Let air dry.

STEP 7:

Disinfect your shell and oar handles.

Wipe the seat, shoes, gunwales, riggers, and oar handles.

STEP 8:

Return your shell and oars to the rack.

Finally, wipe the shell in the area it was touched and the area near your head while it was carried.
